

**RED**

# RT-SP 260

## Stationary Planer

The RT-SP 260 stationary planer is designed for high standards of accuracy and precision within its working range. Universal machining options include the squaring and truing up of rough timber or planing to exact thickness on the thicknessing table. The joint stop is horizontally adjustable and can be tilted through 45° for chamfering.

The knife shaft is equipped with two reversible planing knives for high performance – maximum chip depth 3 mm – and optimum, fine surfaces.

The sturdy base frame gives an excellent stability and offers a practical reservoir at the same time.

### Features

- Powerful motor
- Selector switch for two operating modes (surfacing mode, thicknessing mode)
- Large aluminum feed table
- Infinitely adjustable aluminium parallel stop for exact results
- Connection for dust and chip extractor Ø 100 mm
- Complete with wheels and comfortable handles for easy transport
- Sturdy base frame including storage space

## Stationary Planer

Connection for dust  
and chip extractor  
Ø 100 mm

Infinitely adjustable parallel  
stop for exact results, for  
chamfer tiltable up to 45°

Large massive aluminum feed  
table

Complete with wheels  
and comfortable handles  
for easy transport

Sturdy base frame  
Incl. storage space

### Logistic Information

Type:	RT-SP 260
Art.-No.:	44.199.01
Ident-No.:	01017
Bar code:	4006825 541069
Packing:	810 x 570 x 590 mm
Sales unit:	1 pc
20'':	112 pcs
40'':	224 pcs
40'' HC:	--- pcs
Weight:	90.0 kgs (gross)

### Technical Data

■ Voltage:	230 V ~ 50 Hz
■ Power:	2,000 W
■ Idle speed (planing knives):	6,500 min <sup>-1</sup>
■ Max. working width:	260 mm
■ Max. planing depth:	3 mm
■ Max. thicknessing depth:	3 mm
■ Max. thickness opening:	160 mm
■ Feeding speed:	5 m/min
■ Max. parallel guide tilt:	45°
